

**KENNELWOOD
PET RESORTS®**

Perfect Path Training Program

Perfect Path is designed to be a 12 week training program. All components of the package, with the exception of the 30 day Train 'n Play Pass, will be provided in the 12 week time-frame.

Perfect Path Training Program Includes:

- **Board 'n Train*** (2 weeks)- Allows your pet to learn the basics in a consistent and regimented environment.
- **Day Training** (4 weeks)- Training is continued during the day. During this step the pet parent will begin practicing with the pet on evenings and weekends. This helps integrate the new rules into the home environment. While pets are taking a break from their training session, they will also enjoy socialization through DayCamp.
- **Private In-Store Lessons** (8 Lessons) Throughout the Board 'n Train and Day Training stages, your trainer will schedule a minimum of eight private In-Store Lessons with the pet parent and pet. During this time the pet parent will learn how to properly communicate with the pet.
- **Off-site Lessons** (4 Lessons)- These lessons conducted at your home, park or favorite outing location will help to bring all of the training together to assist the pet and pet parent with executing proficient training.
- **Train 'n Play** (30 day pass)- Bring your pet back at your leisure for refresher days to keep him or her mentally and physically stimulated. Dogs encounter different life stages. Your trainer will quickly identify these stage changes and adjust training accordingly to ensure your pet does not create bad behaviors as he/she grows and matures.
- **Training Collar**- Your trainer may recommend a training collar. This collar will be provided at no additional cost.
- **"Climb" Bed**- During this program your pet will proficiently execute the "climb" command. Your pet's Perfect Path Program includes this tool.
- **Grooming** (5 baths)- Your pet will receive five professional baths at your convenience throughout the duration of the program. These regular baths will not only help your pet's skin and coat remain healthy, but will also acclimate your pet to the grooming process.

*Board 'n Train can be substituted for Day Training on a case by case basis and with the approval from your Trainer.
